Nuclear

Lyrics: Walter F. Binder
Arrangement: Masquerade

Verse 1

Angels cry halls through the night
Demon's flame is shining bright
Time stands still and the sky it burns
Hell on earth, no return

Verse 2

Radioactive ashes falls
there helps no pride, there helps no wall
everywhere is death and blood
Children implore hear no God

2x Refrain

Killers name is nuclear
He brings the death, he brings the war

Verse 3

In the night I cannot sleep
Aches my heart inside the heat
The Agony of death is near
Devil's laughing, can't you hear

But in the dark there is a shine
Reflections of a lovers eye
still fighting for the right to live
giving what you`ve got to give
