Santa is back in town

[Verse 1]

A countdown starts in the evening glow
The world is waiting for the first soft snow
Children look up at the starry sky
Watching the silver clouds drift by
A sudden warmth in the winter chill
A peaceful silence on the hill

[Pre-Chorus]

Then from afar, a familiar sound
A golden light is spreading all around
The bells are ringing, the spirit is near
The happiest time of the year

[Chorus]

Santa is back in town!
Open up your heart and let the magic in
Santa is back in town!
That’s the moment where the holidays begin
With a smile so bright and a gentle hand
Bringing love and joy to every land
Yeah, Santa is back in town!

[Verse 2]
The red trucks rolling through the neon light
They’re bringing wonder to the darkest night
The family gathers by the fireplace
A look of pure delight on every face
Share the dream and pass it along
Join the chorus of a timeless song

[Bridge]
Hear the choir sing, feel the glow inside
Take this feeling on a worldwide ride
It’s a wonderful dream that we all can share
You can feel the kindness everywhere!

[Chorus]
Santa is back in town!
Open up your heart and let the magic in
Santa is back in town!
That’s the moment where the holidays begin
With a smile so bright and a gentle hand
Bringing love and joy to every land
Yeah, Santa is back in town!
